

UNWTO World Tourism Barometer

Volume 10 • January 2012 – Statistical Annex

Statistical Annex

The following pages contain detailed tables on tourism related indicators such as international tourist arrivals, international tourism receipts and expenditure collected by UNWTO from national institutions, as well as data on air transport and accommodation.

Tables reflect yearly data and monthly or quarterly data currently available. Most data is preliminary and may be subject to revision. See the boxes for further information on the data.

The tables on the following pages are not included in the free extract of the *UNWTO World Tourism Barometer*. The full document is available in electronic format for sale and free for UNWTO members and subscribed institutions through the UNWTO elibrary at:

English version: www.e-unwto.org/content/w83v37

French version: www.e-unwto.org/content/t73863

Contents

• International Tourist Arrivals by (Sub)region	A-3
• Outlook for International Tourist Arrivals	A-3
• International Tourist Arrivals, monthly evolution	A-5
• International Tourist Arrivals, 1995-2011	A-7
• International Tourist Arrivals by Country of Destination (Top 50)	A-8
• International Tourism Receipts (Top 50)	A-9
• International Tourism Expenditure (Top 50)	A-11
• Detailed tables by UNWTO regions and subregions:	
- Europe: International Tourist Arrivals	A-12
- Europe: Tourism Receipts	A-13
- Asia and the Pacific: International Tourist Arrivals	A-14
- Asia and the Pacific: Tourism Receipts	A-15
- Americas: International Tourist Arrivals	A-16
- Americas: Tourism Receipts	A-17
- Africa and Middle East: International Tourist Arrivals	A-18
- Africa and Middle East: Tourism Receipts	A-19
• UNWTO Panel of Tourism Experts	A-20

Explanation of abbreviations and signs used

*	= provisional figure or data
..	= figure or data not (yet) available
	= change of series
n/a	= not applicable
mn	= million (1,000,000)
bn	= billion (1,000,000,000)

Q1: January, February, March
Q2: April, May, June
Q3: July, August, September
Q4: October, November, December

T1: From January to April
T2: From May to August
T3: From September to December

H1: From January to June
H2: From July to December

YTD: Year to date, variation of months with data available compared with the same period of the previous year. The (sub)regional totals are approximations for the whole (sub)region based on trends for the countries with data available.

Series International Tourist Arrivals

TF: International tourist arrivals at frontiers (excluding same-day visitors);

VF: International visitor arrivals at frontiers (tourists and same-day visitors);

THS: International tourist arrivals at hotels and similar establishments;

TCE: International tourist arrivals at collective tourism establishments;

NHS: Nights of international tourists in hotels and similar establishments;

NCE: Nights of international tourists in collective tourism establishments.

Series International Tourism Receipts and Expenditure

All percentages are derived from non-seasonally adjusted series in local currencies, unless otherwise indicated: \$: US\$; €: euro; sa: seasonally adjusted series.

The UNWTO World Tourism Barometer is developed as a service for UNWTO Members and published three times a year in English, French and Spanish. Member States, Associate and Affiliate Members receive copies of the Barometer as part of our Member services.

If you are interested in receiving the UNWTO World Tourism Barometer and you are not a UNWTO Member, you can subscribe to the next three issues for € 70 (pdf version delivered electronically) or € 100 (pdf plus hard copy).

To place your order, please consult the infoshop on UNWTO's website at www.unwto.org/infoshop or contact us by telephone.

The *UNWTO World Tourism Barometer* is a publication of the World Tourism Organization (UNWTO). By monitoring short-term tourism trends on a regular basis, UNWTO aims to provide all those involved directly or indirectly in tourism with adequate up-to-date statistics and analysis in a timely fashion.

The *UNWTO World Tourism Barometer* is published three times a year (in January, June and October). Each issue contains three regular sections: an overview of short-term tourism data from destination and generating countries and air transport; the results of the latest survey among the UNWTO Panel of Tourism Experts, providing an evaluation of and prospects for short-term tourism performance; and selected economic data relevant for tourism. The objective for future editions of the *UNWTO World Tourism Barometer* will be to broaden its scope and improve coverage gradually over time.

The *UNWTO World Tourism Barometer* is prepared by UNWTO's Tourism Trends and Marketing Strategies Programme, with the collaboration of consultants, Nancy Cockerell and David Stevens. The UNWTO Secretariat wishes to express its sincere gratitude to all those who have participated in the elaboration of the *UNWTO World Tourism Barometer*, in particular all institutions that supplied data, and to the members of the UNWTO Panel of Tourism Experts for their valuable contributions.

For more information on the *UNWTO World Tourism Barometer*, including copies of previous issues, please refer to the Facts & Figures section on the UNWTO website at <www.unwto.org/facts/menu.html>.

We welcome your comments and suggestions at <barom@unwto.org>, tel +34 915678206 / fax +34 915678217.

The monthly or quarterly statistics included in this issue have been compiled by the UNWTO Secretariat based on preliminary data as disseminated by the institutions (e.g. National Tourism Authorities, Statistics Offices, Central Banks) of the various countries and territories through websites, news releases, and bulletins, or provided through direct contacts with officials or through international organisations such as the Caribbean Tourism Organization (CTO), the European Travel Commission (ETC), Eurostat, the Pacific Asia Travel Association (PATA) or the South Pacific Tourism Organization (SPTO). Information in this issue reflects data available at the time of preparing the *UNWTO World Tourism Barometer*. Whenever necessary, updated data will be included over time as it becomes available and without further notice.

In the tables on International Tourist Arrivals for the various UNWTO regions, series are chosen that can serve as an indicator of trends in tourism development to selected destinations. The monthly series represented do not coincide in all cases with the annual series usually reported for the various countries (e.g. visitor arrivals or nights instead of tourist arrivals) and sometimes only relate to a part of the total tourism flow (e.g. air traffic, specific entry points). Please refer to the box on page 'Annex-1' for further explanations. The (sub)regional totals are approximations for the whole (sub)region prepared by UNWTO based on trends in the countries with data available.

Countries that are not included in this overview, but which have monthly data at their disposal, are kindly requested to contact the UNWTO Secretariat at barom@unwto.org.

The World Tourism Organization is a specialized agency of the United Nations and the leading international organization in the field of tourism. It serves as a global forum for tourism policy issues and a practical source of tourism know-how. Its membership includes 162 countries and territories and over 400 Affiliate Members representing local governments, tourism associations and private sector companies including airlines, hotel groups and tour operators.

About receipts and expenditure data

For destination countries, receipts from international tourism count as exports and cover all transactions related to the consumption by international visitors of, for example, accommodation, food and drink, fuel, domestic transport, entertainment, shopping, etc. They include transactions generated by same-day as well as overnight visitors. Receipts from same-day visitors can be substantial, especially in the case of neighbouring countries where a lot of shopping for goods and services is carried out by cross-border, same-day visitors. However, the values reported as international tourism receipts do not include receipts from international passenger transport contracted from companies outside the travellers' countries of residence, which are reported in a separate category.

With financial data measured in different currencies it is fairly complicated to accurately determine variations in relative terms, as receipts have to be expressed in a common currency like the US dollar or the euro and generally are also reported at current prices, thus not taking account of exchange rate fluctuations and inflation.

Exchange rate changes can substantially influence the amount of US dollars reported from year to year. When the dollar depreciates against for instance the euro, worldwide receipts expressed in dollars relatively increases, and vice versa in the case of appreciation of the dollar. On average for the year, in both 2010 and 2009 the US dollar (and pegged currencies such as from some destinations in the Caribbean or the Middle East) appreciated some 5% against the euro, while in 2008 the dollar depreciated 7% and in 2007 8%. Over the two years 2005 and 2006, the US dollar and the euro maintained a fairly steady exchange rate, although both currencies did fluctuate against a range of other currencies.

On average for the year, in 2010 one euro exchanged at US\$ 1.3257, in 2009 one euro exchanged at US\$ 1.3948, in 2008 at US\$ 1.4708, in 2007 at 1.3705, in 2006 at 1.2556 and in 2005 at 1.2441 (or 1 US\$ to 0.7543 euro on average for 2010, 0.7169 euro in 2009, 0.6799 euro in 2008, 0.7297 euro in 2007, 0.7964 euro in 2006 and 0.8038 euro in 2005).

In order to account for exchange rate changes and inflation, international tourism receipts in US dollar values were computed back to the local currencies of each destination, weighted by the share in the total, and deflated by the relevant rate of inflation.

Although in this way data are made comparable, care should nevertheless be taken in interpreting the trends, as statistics, in most cases, are still provisional and subject to revision. For the totals, estimates are made by UNWTO for countries that have not yet reported results, based on the previous year's value and the trend for the (sub)region. Unlike arrivals, where revisions generally more or less balance out, receipts data tends to be revised upwards.

Platma is the professional online community for UNWTO Affiliate Members. Users can collaborate, share knowledge and exchange best practices in world tourism using a wide range of multimedia tools.

To find out more and register, visit www.platma.org

Elibrary

One of the most comprehensive sources of tourism information prepared by the UNWTO

The Elibrary is an online collection of more than 1000 books in Spanish, English, French, Russian and Arabic, with new titles being added every day. It also allows cross-referenced searches of a large number of publications in their respective languages.

- It provides new opportunities for academic institutions to enhance their efficiency and minimize administrative costs.
- The Elibrary is a modern and competitive educational resource for distance learning, Master's programmes, and professional use.
- Find the information you need thanks to an advanced search system that allows logical operators (Boolean) and entire strings of text.
- Get the most up-to-date statistics using its intuitive interface.

www.e-unwto.org where knowledge is no longer a question of distance!
Connect your university or get individual access to a world of tourism information.

(Data as collected by UNWTO January 2012)

UNWTO Panel of Tourism Experts

The UNWTO Tourism Confidence Index

The UNWTO *Tourism Confidence Index* is based on the results of an email survey conducted by the UNWTO Secretariat among selected representatives of public and private sector organisations participating in the UNWTO *Panel of Tourism Experts*. The survey has been repeated every four months since May 2003 in order to keep track of actual performance, as well as perceived short-term prospects, of the tourism sector. This allows performance and prospects to be compared over time, as well as providing a comparison of the actual performance of the past four months with prospects forecast for the same period four months earlier. Results are also broken down by region and by sector of activity. These breakdowns should, however, be interpreted with caution as they may in some cases be based only on a relatively small number of responses.

The UNWTO Secretariat's aim is to continuously expand and improve the Panel sample. Experts interested in participating in the survey, in particular from countries still not included in the listing below, are kindly invited to send an email to <barom@unwto.org>.

How to read this data

For the UNWTO *Tourism Confidence Index* members of the UNWTO Panel of Tourism Experts are asked once every four months by email to answer the following two simple questions:

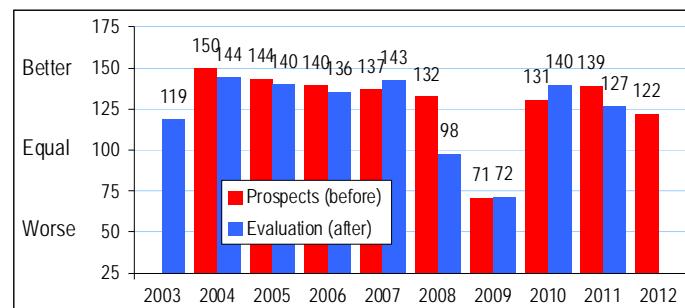

- What is your assessment of tourism performance in your destination or business for the four months just ended (or about to end) as against what you would reasonably expect for this time of year?
- What are the tourism prospects of your destination or business in the coming four months compared with what you would reasonably expect for this time of year?

Participants should select one of the following five options: much worse [0]; worse [50]; equal [100]; better [150], much better [200]. Results are averaged and broken down by region and by activity. A value above 100 means that the number of participants who evaluate the situation as "better" or "much better", outnumber the participants who reply "worse" or "much worse".

In addition, participants are also invited to include a qualitative assessment in their own words. The analysis contained in the *UNWTO World Tourism Barometer* is in large part based on their comments.

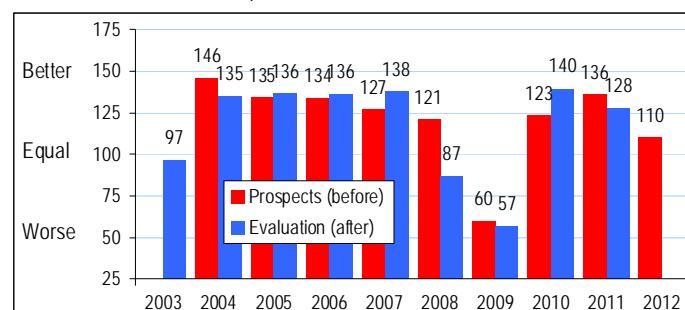

For this edition responses have been received from experts based in Algeria, Anguilla, Argentina, Australia, Austria, Azerbaijan, Bahamas, Belgium, Bhutan, Bolivia, Bosnia and Herzegovina, Brazil, Burkina Faso, Cambodia, Cameroon, Canada, Chile, China, Colombia, Costa Rica, Côte d'Ivoire, Croatia, Cuba, Cyprus, Czech Republic, Democratic Republic of the Congo, Denmark, Dominican Republic, Ecuador, Egypt, El Salvador, Estonia, Finland, France, Georgia, Germany, Greece, Grenada, Guatemala, Honduras, Hong Kong (China), Hungary, Iceland, India, Indonesia, Iran, Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kenya, Lebanon, Lesotho, Liechtenstein, Lithuania, Macao (China), Malaysia, Maldives, Malta, Mauritius, Mexico, Monaco, Morocco, Nepal, Netherlands, New Zealand, Nicaragua, Niger, Nigeria, Norway, Paraguay, Peru, Poland, Portugal, Puerto Rico, Republic of Korea, Reunion, Romania, Russian Federation, Saudi Arabia, Senegal, Serbia, Singapore, Slovenia, South Africa, Spain, Swaziland, Sweden, Switzerland, Taiwan (pr. of China), Thailand, Tunisia, Turkey, United Arab Emirates, United Kingdom, United States, Uruguay, Uzbekistan, Venezuela, Vietnam and Zimbabwe.

UNWTO World Tourism Barometer

The *UNWTO World Tourism Barometer* offers a unique overview of short-term international tourism trends. It is developed by UNWTO with the aim to provide all those directly or indirectly involved in tourism with adequate up-to-date statistics and analysis in a timely fashion. Each issue contains three regular sections: an overview of short-term tourism trends including data on international tourist arrivals, tourism receipts and expenditure for over 100 countries worldwide and data on air transport on major routes; a retrospective and prospective evaluation of current tourism performance by the members of the UNWTO Panel of Tourism Experts; and selected economic data relevant for tourism. The *UNWTO World Tourism Barometer* is periodically updated.

Handbook on E-marketing for Tourism Destinations

This handbook is the first of its kind for tourism destinations. It is a practical 'how-to' manual designed to help staff at national, regional and city tourism organisations, to improve their e-marketing skills and manage new projects. It covers all the basics such as web design, search engine optimisation, social networking and e-commerce, and advises among others on how to build better content, get distribution of it, use CRM, succeed with online PR and get into mobile marketing. Web analytics, online research methods, and performance measurement get full treatment and new areas like digital television are covered. Also, it includes over 30 examples of e-marketing in action.

Budgets of National Tourism Organizations, 2008-2009

Budgets of National Tourism Organizations, 2008-2009 is a benchmarking reference tool on inbound tourism marketing. This ETC/UNWTO report compiles and analyses updated and comparable information on the budgets that NTOs allocate for the promotion of inbound tourism, as well as their structure, functions and activities, focusing on recent trends and developments. Given the increasing importance of e-marketing, the report also includes a special focus on the use of Information and Communication Technologies (ICT) by NTOs in international tourism promotion. The report covers 62 countries worldwide.

Cruise Tourism – Current Situation and Trends

Over the past years, worldwide demand for cruise tourism has posted some of the biggest gains within the tourism sector. The constant dynamism in cruise activity, as well as the increasing number of countries that include cruises, as a key product for their tourism development, has led to update and expand the first edition of the UNWTO study of 2003. This new study discusses subjects like the current supply and demand for cruises as well as its characteristics and trends. A new element includes the relationship between destinations and cruise lines, analysing key factors such as legislation, promotion and the economic impact of cruises through reference cases. It presents current trends in this industry in terms of innovation, safety and security, sustainability, and identifies the major lines that will shape the sector.

Demographic Change and Tourism

The structure of societies is continuously changing: The world population is forecast to grow to 8.3 billion in 2030, life expectancy is projected to increase in most of the world, households and families are becoming more diverse, and migration is changing the face of societies. All these changes will impact upon the types of tourists, where they originate from, where they travel to, the types of accommodation they require and the activities they engage in while travelling. The UNWTO/ETC Report on *Demographic Change and Tourism* aims to be a reference for destinations and the industry to achieve a better understanding of current and future changes and to anticipate and react upon them in the most competitive way. It includes a comprehensive analysis of major demographic trends and how these will impact on tourism in specific generating markets focusing on three major trends: Population growth and ageing, Household composition and travel parties, and Migration Branding.

The Indian Outbound Travel Market, The Chinese Outbound Travel Market and The Russian Outbound Travel Market with Special Insight into the Image of Europe as a Destination

The Indian, The Chinese and The Russian Outbound Travel Markets are some of the fastest growing, and consequently increasingly important markets in the world. As a result, the UNWTO and ETC have jointly published in-depth research studies focused on each unique market. The reports aim to provide the necessary information in order to better understand the structure and trends of these growing markets.

The outbound reports cover issues such as travellers' behaviour and patterns – destination choice, purpose of travel, spending, holiday activities and market segmentation, as well as the media or internet use trends.

Handbook on Tourism Destination Branding

All over, governments have become aware of tourism's power to boost their nation's development and prosperity. As more tourism destinations emerge and competition for visitors becomes more intense, a destination's ability to project itself on the world stage and differentiate itself from others is ever more important. Recognizing the value of successfully building and managing a destination's brand, the ETC and the UNWTO provide a useful and practical handbook for both marketing novices and experienced destination managers. Introduced by Simon Anholt, it offers a step-by-step guide to the branding process accompanied by strategies for brand management. Case studies illustrate the various concepts, present best practices from around the world and provide fresh insight into destination branding. It concludes with a section on evaluating brand impact and a set of practical recommendations.

The Spanish Outbound Travel Market to Africa and the Middle East and Study on Chinese Outbound Travel to Africa

While other regions enjoy their fair share of the tourism cake, Africa only accounts for five percent of international tourist arrivals worldwide. One of the reasons for this low traffic to Africa could be insufficient knowledge about how to tap into markets, especially growing markets, such as the Chinese and Spanish one. As a result, the UNWTO has published two reports aimed at supporting African countries in benefitting from the growing Chinese and Spanish markets; by providing information linked to size, main characteristics, needs and expectations, as well as possible strategies for attracting Spanish and Chinese tourists to Africa.
